

Biology | 2015-2016 Assessment Plan

1. Which outcome will you assess this year (2015-2016)?

Biology Learning Outcome 1: describe the organization and diversity of life at levels of complexity from subcellular to ecosystem.

2. Which technique will you use to assess this outcome?

Embedded assessment (exam questions, pre and post assessment)

3. Which course or group of students will you assess on the outcome chosen above and when?

Students enrolled in the upper level core courses Biology 201 and 202 will be assessed.

4. Who will do the assessment and coordinate the data collection and reporting?

Course instructors (Pott and Mueller) will conduct assessments. Amy Wolf, Biology Chair, will compile results from assessments and report the findings.
