Chloe Hansen offered assistance with election awareness and volunteer help during election day.
(Student Governance Committee)

Jeff Huebner – New applicants for senate sign a contract to serve on Academic Affairs written by Franklin Rabideau. The applicants signed a contract before being sworn in, only the Speaker can appoint committees, but Senator Rabideau's behavior is questionable and at least needs to be addressed formally. Take this information under advisement.

Paul Grover – Review elections rules as they currently stand, and see which bylaws need to be addressed. Focus on infractions and how to incorporate electronic advertisement rules.

Adrian Canilho-Burke – Suggest moving meetings to every Thursday to provide more time for discussion. Tuesdays as needed.

New Business – Browse through Student Court website and find necessary updates.

Programming for electronic voting - take a look at links sent to Paul from Stearney.

Rules and timeline for elections should be convenient for Senate. Preferably provide two senate meetings for deliberation on changes to election bylaws. Deadline by November 12th.

Nathaniel Krueger – We currently use first past the post method. Change to approval voting, giving voters the ability to choose many candidates. Spoiler effect.

Conclusion – Bring this request to the Exec Board. The issues opposed to approval voting is that the current voter turnout and tradition of two presidential candidates do not necessarily warrant a need for this more equitable voting method.

Stephany Haack – Visibility Committee. Propose events to garner awareness; and cooperate with other senatorial or exec. Members.

Motion to adjourn – 4:03pm
