f) Advisors:

- Katie: Good to see you all. March 1<sup>st</sup> @ 1Pm there is a woman's basketball, and we are trying to sell the Kress out. How do we get students to come to the game? A raffle?
- Radwa: a scholarship
- Katie: amount of money
- Radwa: \$100-\$500
- Adam: like have 10 \$100 students working
- Kendra: Food
- Karime: Free food.
- Lucas: Moving the time.
- Nathan: More voice on the advertisement of what is going on. Thing can student want to. You cannot make things happen on campus. You hear people say there is nothing. Having it advertisement on social media. My whole thing is to get athletic involvement in the events. Just having conversations with people.

- Lucas: Doing more advertisements on social media
- Katie: Here is the link to the Instagram:  
<https://www.instagram.com/gbphoenixzone/> the food thing is something we can do and the drawing
- Devan: can something be done for the womans basketball team come to the SEC and do some get
- Adam: If you have nothing going on at night at 6pm there is a men's basketball game. Walker emailed us too. Walker emailed us to let people watch out for fraud. Katie and I were thinking about health and safety.
- Devan: Why was I not included in the email?
- Katie: I think he just didn't think he was thinking of adding you to the email list.
- Adam: In the SEC we want to preview a larger show for the fall semester. Working with Eathan

## VII. New Business

### a) Amaad Rivera-Wagner

- Devan: what kind of work have you been up to since January.
- Amaad: January 6<sup>th</sup> is when I got Sworn in. We have been working on two things. One is a sweet of police proposal. One is a practical loan when you're driving and

you see a lot of pay day loans and they can charge up to 800%. I am going to interest Lones of 36% for veterans and I am a big advocate for UWGB. We are interested in a build for surpluses fund for using money to fund that have been blocked. Approved by the Congress. The mung has never been. I have been trying to get posters and photos in my office at Madison. I have been getting to know all our institutions with the hospitals. I have been getting back-to-back meetings and cause ruckess and I Love when you do thar. There is a good election in April. April is a very important election

- Sawyer: housing policies
- Amaad: I was raised by a single mom, and we were homeless for the first part of my life. What changed my life was Habitat for Humanity and housing that we built of the community and a non-profit. The housing that was built is where my mom still lives to this day. One thing that interested me is the housing prices is we want people to live here and that is making things go up. Tits and tiffs that you cannot use for housing. I am focusing on the work force housing is for 80% to 120%. We are imported for housing. We are expanding our transportation, so we are building more transportation. I am starting a passenger train. Taking a train from Wisconsin to others.
- Sawyer: Development is higher end and how to we stop it?
- Amaad: Fordable housing and Expensive housing. Workforce housing is 60-80% of housing. I should not have to pay \$2,000 for housing when I just graduated high school/college. The housing is expensive but also it takes legal housing.

- Nathan: How can college students get involved in making policies?
- Amaad: talk to all of your representatives and tell them what you want. Always go to your people and talk to them. Bus stop moving, housing, internship, and. Ask if you want the job. There is no dumb question. Social media on Instagram/Facebook but not sure about snapchat.
- Lucas: do you see Air B&B being an issue?
- Amaad: I would like to limit the vacation housing. What we have is that we have people buy up blocks of housing by Lambo who do not leave there. Air B&B makes property taxes go up because they are taking up vacation houses. I believe it should be up to the community and not the company
- Sawyer: Have you done anything with the NFL Draft?
- Amaad: I worked for the mayor. On the Tuesday before the draft is the earth day 2025 and there will be free food. Track and Field Day and it is at the old Lambo field. Free food like brat. If you are anti draft/football do not go downtown
- Radwa:
- Amaad: <https://www.greenbay.com/draft25/> and <https://www.greenbaywi.gkov/1505/2025-NFL-Draft> and it's going to be a party
- Katie: NFL Draft is known for Human trafficking and what are we doing for it
- Amaad: we gave 1 million dollars for public safety. There will be a police officer in every corner, and we are working with the FBI.
- Devan: Like I mentioned before, and police are completely staffed for those days.

Don't do anything stupid these days.

- Karime: Can you tell us about your experience in SGA and what a takeaway from it was.
- Amaad: I was in all three and I was not. I was a touring guide, and we got logged down and we did all the events. We would do bingo, and our big prize is the tv screens. I was a student during the 9/11/2001 and students were getting attacked. I could not be open about who I was, or I could lose my job. Have a lot of fun and ask questions to your elected officials. There are real things happening in the world and making sure people get involved in what is going on. We were not very good at this, and it is very easy. We had a shitty shuttle that would not be taken.
- Moises: How often will you be able to come to campus?
- Amaad: I can come often, and I hate going to Madison. I try and spend the least amount of time with Madison, and I rather be in my community. The only thing we don't plan is voting. Something we have to be able to vote for within 72 hours. I did something with a play and a Pannal for it. It is fun to come and hang out with all of you guys.
- Karime I want you to go around and tell him who you are
- Moises: Intergovernmental affairs major is political science and public administration
- Ethan: arts and preformats major theater
- Nathan: Recreation and athletics major accounting and prelaw

- Devan: Health and Safety major history with a minor in education

- Sawyer: I can talk to you later about internships?
- Katie: Can you do flips at the game?

- Nathan: what were your main take aways Karime and Moises?
- Moises: pay attention through there body language they support you or they do not support you
- Karime: being mindful of the body language than we quickly turned it around. Making sure we had are UW facts and making sure they know them.
- Nathan: How did we do as system?
- Karime: UW Platvill great, UW Stevens point got push back about the budget, UW Staought and the did good but got pushback in the morning .
- Adam: No more lobbing what do we do go moving forward?

- Karime: Step one is reaching out to representatives and invite them to here. Keep using our facts and being proactive. Spread the word
- Katie: I want you to understand the lagistise of everything. I am grateful that sawyer and Abigail that happened.

c) Team Bonding with Adam and Katie

- Adam: you need to line up, but you cannot talk. Then we will put you into a group with one other person. Nathan and Kendra won.
- Nathan: I basically said we are going to through 4 in a row and won it.
- Kendra: Honestly, I don't know, and I was bored. It can't be any worse than team bonding from the retreat. So, I work with Nathan K, and he was the “leader” and he how females don’t know how to do things. I went along with what he said and I didn't have anything to do with it. With the first one I am not going to work with him and this Nathan I went along with it and we won.
- Adam: Don't avoid them and find a way to work with them.
- Nathan: Doesn't feel great and be open minded and listen to everyone. Hearing that it make want to go out my way to hear everyone out.
- Katie: If we shut down every man say something mean we would be in a tough place.
- Adam: it was pretty, but you took the high road.
- Devan: To see if they would do it.
- Adam: Disagreement what did you do

- Lucas/Devan: We just wrote something down.
- Karime/Ethan: Eathan and I just picked random numbers
- Moises/Sawyer: The first were just random and the last one was he could buff, and I just want to go to reports I am tired.
- Adam: I thought we would just get to it at some point. Nathan said we would throw a 4 and you know he is truthful.
- Shaun/Caden: hafe the time we couldn't hear it, and we just guess. We couldn't hear or see what you were doing.
- Nathan: Devan know we were going to do it so why factor your dissection
- Devan: see the upside of the chopping block. If it's not harmful I can except it.
- Adam: the winner will get a free drink from the coffee house. Just let me when you want it kendra and Nathan.
